

## The Great Paschal Feast, Happy Easter! Let's Make Holy Noise with Holy Bells!

### Materials Needed:

Clay Pot or old coffee mug

Markers (permanent)

Shoestring

Washers

Drill (if you need to make a hole, see the second video)

**Summary:** Take a sharpie marker to create designs on the clay pot or coffee mug. Consider, dots, lines, or shapes, repeated. Also, use color markers on a white surface (if you have access to a white surface). Next, ask a parent or guardian to drill the hole into the pot/mug, see the video. (NOTE: Drilling through a mug is done the same way as the clay pot, but it will take more pressure).

Taking the shoestring, follow the video to put on the string, (maybe washer depending on the size of the hole) bolt, and knots. Consider putting these outside on a tree for Easter and ring them at the appointed time.

Consider these symbols to be used to decorate
